

CABIN LED RENTAL

VH PLUS SERIES

Experience unparalleled portability and exceptional visual prowess

Ultra-thin and Light weight

Fast heat dissipation

High strength

Easy installation

High precision

Easy maintenance

VH Plus Series

Experience unparalleled mobility and exceptional display capabilities with the VH Plus series. Perfect for indoor/outdoor LED screen applications demanding versatility and resilience.

Featuring a lightweight design, high-resolution visuals, and effortless transportation and installation, the VH Plus series is ideal for stages, events, and exhibitions, delivering stunning results every time.

Lightweight and Rugged

VH Plus rental LED cabinets are made from magnesium alloy, resulting in a lighter weight compared to traditional LED cabinets. This increases their sturdiness and reduces deformation under impact.

Safety

The VH Plus series features an anti-collision design with flip-over protective corners and edge protrusion structures, preventing direct collision between LEDs and the ground to effectively protect edge LEDs

Anti-Collision on four corners

Avoid direct contact, protect LED bulbs

Anti-Bump Welding Plate Design

Anti-bump welding plate design, even if the LED lamps were knocked off, the welding plate will not be damaged, greatly improving the LED lamp maintainability.

Quick | One Man Installation

Auto-locking vertical lock system for fast and easy 1 man installation with ultimate safety and pixel protection

High-Quality Cable Connectors

The VH Plus series incorporates high-quality cable connectors for power and data transmission to achieve stable power and data signal transmission, and are equipped with high-quality cables to further reduce the failure rate

Mixed Splicing

500*500mm and 500*1000mm cabinets can be easily spliced up and down, greatly satisfying different needs of stage design

Enhanced Viewing Experience

With ultra-high contrast ratio and ultra-high refresh rate, the whole screen is more vivid, also effectively suppress Moiré and reducing light refraction and making colors more concentrated

Grayscale:
14 bit 

Brightness:
800-5000 nits 

Refresh rate:
≥7680 Hz 

Curved Splicing Optional

The cabinet can achieve 45°/-10°/15° arc splicing effects

45° assembly

Specification Parameter

Product	VH-2.6 (Indoor)	VH-2.9 (Indoor)	VH-3.9 (Indoor)	VH-3.9 (Outdoor)
Pixel Pitch (mm)	2.604	2.97	3.91	3.91
Cabinet size (WxHxD/mm)	500x500x88 500x1000x88			
Cabinet Resolution	192x192 192x384	168x168 168x336	128x128 128x256	128x128 128x256
Cabinet Material	Magnesium alloy			
Cabinet Weight (Kg)	5,8 / 10.34	5,8 / 10.3	5,8 / 10.3	6 / 10.8
Brightness (Nits)	800	800	800	≥5000
Refresh Rate (Hz)	≥7680			
Gray Scale (Bit)	14			
IP Rating (Front/Rear)	IP40/IP21	IP40/IP21	IP40/IP21	IP65/54
Max./Avg Power Consumption (W/m ²)	480/160	480/160	472/157	735/245
Curve	45°/-10°/15°
